<i>Please note: After calling Dig Safe, you must wait 72 business hours before digging can begin.</i>		
Saco DPW	1-207-284-6641	_____
DEP – Environmental	1-207-287-2651	_____

### Please provide the following with your permit application:

- A photo of the structure(s) to be demolished
- A site plan of the property showing the locations of the structure(s)
- A Certificate of Abatement from an asbestos abatement company
- A plan of disposal of the debris in a legal manner
- A completed demolition call list and signed form

**A pre-demolition inspection is required by the Code Enforcement Office prior to the issuance of this permit.**

Please call 207-284-6983 in order to schedule your inspection after you submit your application. Your permit cannot be issued until after this inspection occurs. All of your utilities must be disconnected at the time of inspection; the building must be completely abated of hazardous material such as asbestos, oil tanks, etc.; the contents of the building must be completely removed; the building must be clear of rodent harborage and the demolition of the building must not present any danger to abutting property or the public way.

**I have completed the above call list, obtained any other necessary permits and attached all required documentation with this application.**
