### TREASURER'S FINANCIAL STATEMENT FOR PROPOSED BOND

City borrows money for certain purposes. The following is a summary of the bonded indebtedness of the City as of the referendum date. The total amount of bonds of the City of Saco outstanding and unpaid is \$20,258,992, of which \$16,143,598 is principal and \$4,115,395 is interest. The city has \$500,000 in bonds authorized and unissued. The total amount of bonds of the City to be issued if the question authorizing this borrowing is ratified by the voters is \$2,300,000. The total debt service costs of the bonds will vary depending on the prevailing interest rates at the time the bonds are issued. The total estimated principal and interest payments on the bonds is \$2,610,500, of which \$2,300,000 is principal, and estimated interest at fixed rates ranging from 2.50% to 3.00% (depending on the years to maturity) over 8 years is \$310,500.

The validity of the bonds and of the voters' ratification of the bonds may not be affected by any errors in the estimate made pursuant to the above statement. If the actual amount of the total debt service for the bond issue varies from the estimate, the ratification by the electors is nevertheless conclusive and the validity of the bond issue is not affected by reason of the variance.

s/ Beth Cote, Treasurer, City of Saco

**STATE OF MAINE REFERENDUM QUESTIONS - TREASURER'S STATEMENT**

The State of Maine borrows money by issuing bonds. Bonding is a multi-step process which can generally be described as follows:

1. The Legislature decides what it believes should be funded from bond proceeds (money acquired from the sale of bonds) and puts the bonds out for voter approval as required by the State Constitution.
2. The voters, at a statewide election, approve or reject each bond proposal.
3. The State Treasurer issues bonds to pay for those projects approved by the voters or otherwise authorized by the Constitution. A person or institution purchasing the bonds is, in effect, loaning the State of Maine money in return for interest payments during the term of the bond.
4. The Treasurer distributes the money acquired from the sale of bonds in accordance with the legislation authorizing bonds for approved projects
5. The Treasurer makes payments twice yearly to bond purchasers until the debt is retired.

The following is a summary of the general obligation bond debt of the State of Maine as of September 1, 2009.

Bonds Outstanding (Issued and Maturing through 2019):
