## Sea Level Rise Viewer

NOAA Office for Coastal Management

**Overview**

Use this web mapping tool to visualize community-level impacts from coastal flooding or sea level rise (up to 6 feet above average high tides). Photo simulations of how future flooding might impact local landmarks are also provided, as well as data related to water depth, connectivity, flood frequency, socio-economic vulnerability, wetland loss and migration, and mapping confidence.

**Features**

- Visualize potential impacts from sea level rise through maps and photos
- Learn about data and methods through documentation
- Share maps and links via email and social media
- Download inundation layers and digital elevation models, and access web map services for custom GIS applications
